# VIRTUAL CONFERENCE

## The Impact of the Pandemic on the Economy

Hi TABE,

In lieu of our annual conference held in Kingston each summer, CABE will be running a series of webinars over a period of several weeks, beginning August 25th. The theme for this year's virtual conference is *The Impact of the Pandemic on the Economy*.

If you are not a member, now is a great time to join CABE. Visit [become a member](#) for more information. You can [purchase a CABE membership by clicking here](#).

Registration is required for each webinar in order to receive the login information.

---

### Keynote Speaker

**Perceived Inflation and Reality: Understanding the Difference**

**Lawrence Schembri**  
Deputy Governor, Bank  
of Canada

*Surveys regularly find that the consumers' perception of inflation is higher than officially reported CPI inflation. This difference has become more prominent during the COVID-19 containment period. In his address to CABE, Deputy Governor Lawrence Schembri will explore explanations of this difference, drawing from ongoing collaborative research by Bank of Canada and Statistics Canada. He will also speak to the implications of these findings for the conduct of monetary policy.*

Aug. 25, 1:30pm ET

CABE is pleased to present Lawrence Schembri as our keynote speaker for our 2020 virtual conference. Registration for this session is restricted to and free for National and Local members. Registered guests from CABE will have the opportunity to submit questions.

---
