

A comparative analysis of the impacts of immigrant and native-born labour force on economic growth in Canada

By Cherise Millar  
Date: December 16<sup>th</sup> 2022

# Why is the study important?

Immigrants – Labour  
Market Information  
(L.M.I)

Academic  
Researchers –  
Benefits of  
Immigration

Policy Makers –  
Considerations for  
programs

# The Atlantic Provinces

- NS**<sup>4 & 5</sup>
- Ocean Technology
  - Licensed nurses
  - Computer programmers
  - Retail sales supervisors

- NB**<sup>4 & 5</sup>
- Tourism
  - Manufacturing

- NL**<sup>4 & 5</sup>
- Aquaculture
  - Salmon Processing
  - Computer science
  - Oil and gas sector

- PEI**<sup>4 & 5</sup>
- Seafood processing
  - Technical specialists
  - Construction
  - Truck Drivers

**Projections**<sup>1</sup>

- Projected Economic Growth from 2019-2040 is 0.8%

**GDP by industry**<sup>6</sup>

- Lowest in NL except in 2013, 2014 and 2016

**NB & NL**<sup>3</sup>

Lowest core skills for employment

**NS & PEI**<sup>3</sup>

NS: Above average  
PEI: Risk tech unemployment

High unemployment rate can be explained by highest rate of seasonal and temporary jobs<sup>2</sup>

## Empirical Methodology & Data

$$\ln GDP_{it} = \alpha_0 + \alpha_1 \ln K_{it} + \alpha_2 \ln N_{it} + \alpha_3 \ln LFE_{it} + \alpha_4 \ln LFR_{it} + \alpha_5 \ln O_{it} +$$

$$\sum_{i=1}^9 \sum_{j=6}^{14} \alpha_j (\ln N_{it}) * (P_i) + \sum_{i=1}^9 \sum_{j=15}^{23} \alpha_j (\ln LFE_{it}) * (P_i) + \sum_{i=1}^9 \sum_{j=24}^{32} \alpha_j (\ln LFR_{it}) * (P_i) + \varepsilon_{it}$$

Where: K = capital, N = native born employment, LFE = established foreign born employment, LFR = recent foreign-born employment, O = all other employment and  $\varepsilon_{it}$  is the random error term. Subscript 'i' denotes a province.

Notes:

- ◆ Out of the ten Canadian provinces, Newfoundland & Labrador is the base province.

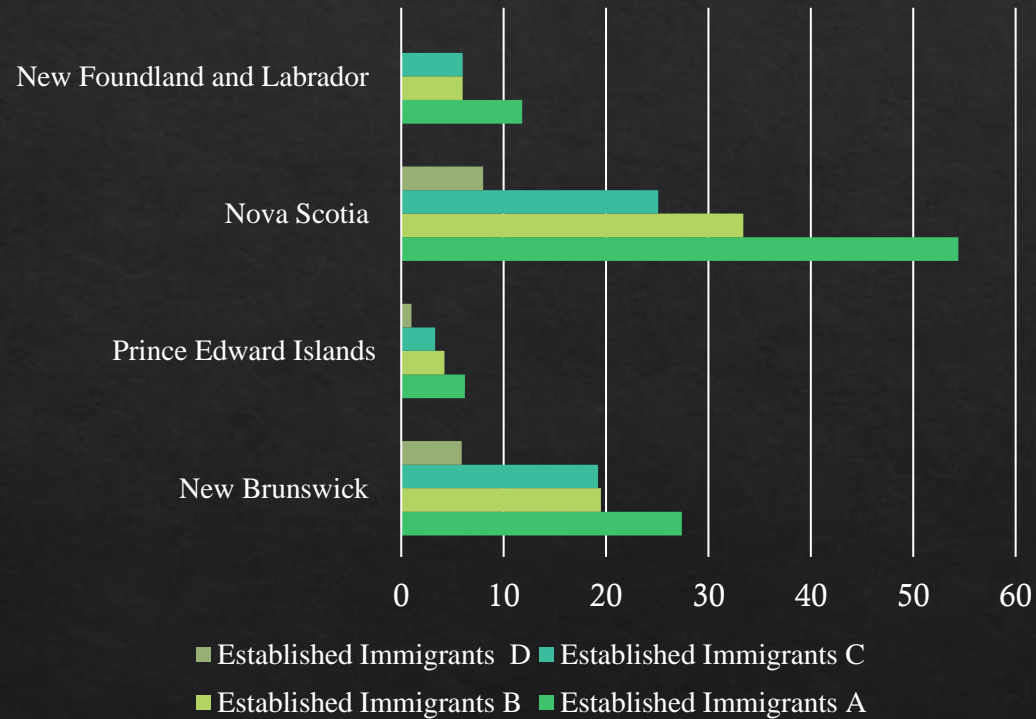

## Provincial Effects for each NOC Level in Canada

<b>NOC Levels</b>	
Skill A Established Immigrants (BC)	0.128***
Skill A Established Immigrants (ON)	0.082**
Skill A Established Immigrants (SK)	0.09*
Skill A Recent Immigrants (BC)	-0.056*
Skill B Natives (NL)	0.153**
Skill B Established Immigrants (ON)	0.082*
Skill B Established Immigrants (NS)	0.068**
Skill B Natives (NB)	-0.18*
Skill B Natives (QC)	-0.19***
Skill B Natives (NS)	-0.027***
Skill C Established Immigrants (BC)	0.116***
Skill C Established Immigrants (ON)	0.104***
Skill C Natives (NL)	0.077**
Skill C Established Immigrants (NS)	0.041***
Skill C Established Immigrants (QC)	0.038***
Skill C Recent Immigrants (SK)	0.017***
Skill C Established Immigrants (NL)	0.012*
Skill C Recent Immigrants (MB)	0.011**
Skill C Recent Immigrants (ON)	-0.056***
Skill C Established Immigrants (SK)	-0.057***
Skill C Natives (ON)	-0.061**
Skill C Recent Immigrants (BC)	-0.064***
Skill D Established Immigrants (ON)	0.129***
Skill D Natives (NS)	0.128*
Skill D Natives (SK)	0.122*
Skill D Natives (MB)	0.108*
Skill D Natives (AB)	0.092*
Skill D Established Immigrants (NB)	0.072*
Skill D Recent Immigrants (QC)	0.038***
Skill D Recent Immigrants (MB)	0.029**
Skill D Natives (PE)	-2.747***
Skill D Established Immigrants (PE)	-4.147***

# Link between Skills and Educational Requirements for Immigration Programs in Atlantic Canada

Aggregate Count of Employment for Established Immigrants (2015-2021)

Aggregate Count of Employment for Recent Immigrants (2015-2021)

## What to consider?

- ◇ Improved labour market data
- ◇ Training
- ◇ Improving family and childcare policies and others for underrepresented groups.
- ◇ Automation and Technology
- ◇ Attract more young people
